

## ◆ Model 2: Active Capital Management by MAP

You entrust us with your capital – we invest strategically, securely, and with strong returns.

This model is designed for investors who lack the time or experience to manage their own assets but want to benefit from digital financial markets – with clearly defined risk and predictable returns.

### 🎯 Target Group

- Individuals with little time or expertise in the crypto sector
- Investors seeking fixed returns
- Clients who want to delegate responsibility while retaining oversight

### 💡 How It Works:

#### 1. Contract & Deposit:

- Minimum deposit of €1,000
- Fixed term starting from 3 months
- Expected or guaranteed return (up to 10%)
- Funds deposited into an official escrow/project account

#### 2. Active Investment by MAP:

- Investments in vetted projects with strong market positions
- Use of staking, liquidity mining, lending, etc.
- Diversification to minimize risk

#### 3. Generating Returns:

- Capital generates passive income during the term
- Payout either fixed or performance-based

#### 4. Payout or Reinvestment:

- At maturity: return of capital + profits
- Option to extend or reinvest

#### 5. Security & Transparency:

- Contractual repayment guarantee
- Documented transactions and GDPR-compliant reporting
